

12th March 2015

SLI/JSN/Resilience Challenge Day

Dear Parent/Carer

Re Year 8 STEM Resilience Challenge Day

I am delighted to inform you that your daughter/son will be participating in the Year 8 STEM Resilience Challenge Day on **Thursday 19th March 2015** at The Leigh Academy. Students will enjoy problem-solving sessions within Science, Technology, Engineering, Mathematics and PE throughout the day.

The day has been designed to create a healthy competitive set of challenges across the STEM subjects that will not only test students 'resilience' but ensure respect, determination and communication prevail. Each College will be awarded points depending on their overall attitude and successful completion of the set activities. These points will also be added to an overall intra College competition score to be completed during an 'Activities Week' in July.

Students will be required to meet in the Lecture Theatre between **8.15 a.m. - 8.30 a.m.** wearing their PE kit. They will be issued with a T-shirt, placed into a team and participate in which we are anticipating will be an excellent day. Students will be required to keep this T-shirt for the 'Activities Week' which will take place between 13th to 17th July.

If you have any further questions please do not hesitate to contact me on 01322 620592 or stuart.lindars@leighacademy.org.uk.

Yours sincerely

Stuart Lindars
Vice Principal
Darwin College
