Last week Heads of Colleges held assemblies for all Year 7 students explaining the assessment process and giving them useful revision tips. As part of the tutor time programme they have received a summary sheet of their examinations, copies of a revision timetable and index cards to support their revision, as well as tips on how to use these effectively. Students have been advised to continue with their revision over the break in preparation for these assessments and you can support this by encouraging their revision efforts and testing their knowledge.

Please do not hesitate to contact me if you have any further questions.

Yours faithfully
